## Table of Contents

A Game-Theoretic Approach on Strategic Investments through Launching New Divisions ................................................................. 1  
   Yim, Hyung Rok, Jung, Wonjin

Examining the Indirect Effect of User Interface on the Usability of Smartphone Applications ......................................................... 4  
   Wonjin Jung and Hyung-Rok Yim

Design of Personal Information Protection Level Management System .......... 8  
   Ya-Ri Lee, Kyung-Pyo Hong, Jung-Sook Kim, Ho-Kyun Park

Enhancing Secure AS Path BGP (SAPBGP) for Efficient Comparison......... 14  
   Je-Kuk Yun, Jin-Hee Song

The Laboratory Test for Estimate Freezing Effect of Backfill Material on a Buried Pipe ......................................................................... 18  
   Jaemo Kang, Du-Hee Park, Jangguen Lee, Pill-Jae Kwak, Sang-Hyuk Park, Hyun-Dong Lee

IoT(Internet of Things)-based Underground Risk Assessment System Surrounding Water Pipes in Korea ............................................. 23  
   Pill-Jae Kwak, Sang-Hyuk Park, Chang-Ho Choi, Hyun-Dong Lee, Jae-Mo Kang, In-Hwan Lee

Selective Data Dissemination using Attribute Based Encryption ............... 27  
   Eun-Kyu Lee and Ki Young Lee

A rule-based method to trace change history after refactoring ................. 31  
   Seonghye Yoon, Chaeyoung Lee, Sooyong Park, Mansoo Hwang

A Study on DBaaS system for the HL7-based health information sharing in the cloud environment .................................................... 35  
   Ho-Kyun Park, Seok-Jae Moon

A Study on the Social Factors Causing Fatigue and Attitude Ambivalence .................................................................................. 39  
   Hee-Kyung Hong, Su Young Han, Jung-Won Lee, Min-Seon Kim and Kyeong-Seok Han
Anticorrosion Effect of the SA Method on Reclaimed-Water Pipes .......................................................... 43  
Myeongsik Kong, Hyundong Lee, Joonhyung Lee

Development of Treatment-Train-Package System for Stormwater Runoff Management in Urban Area ........................................................................................................ 47  
Reeho Kim, Jung-hun Lee, Daehee Lee

Case study analysis on the application of BIM in Korea’s civil engineering industry and securing of interoperability of BIM models ............................................ 51  
Jaehyun Park, Hyundong Lee, Pilljae Kwak

Concentration Characteristics of Runoff Pollutants using Statistical Techniques during a Storm: The Case Research of Driveway Site in Korea ...... 56  
Jaehwan Ahn, Hyecheon Oh, Seogku Kim, Hyundong Lee, Heejae Oh

Hyecheon Oh, Seogku Kim, Jaehwan Ahn, Dongseok Rhee, Hyundong Lee

Analysis on the Performance Evaluation of a High-Speed Filtering Apparatus for the Treatment of Combined Sewer Overflows (CSOs) ..................................... 64  
Sangleen Yun, Seogku Kim, Hyundong Lee

Bio-toxicity Assessment of PFOA and PFOS to Vibrio fischeri by Photomultiplier Tube ........................................................................................................... 68  
Jai-yeop Lee, Hyun-dong Lee, Il-ho Kim

Economic Evaluation of Leak Monitoring System in Water Supply System ...... 71  
Hyundong Lee, Myeongsik Kong, Sungwon Kang

Residual life Estimate of Cast Iron Pipes through analysis of corrosion rates ..... 75  
Hyundong Lee, Hongcheol Shin

An Integration of Augmented Information for Video Content ....................... 79  
Hee-Kyung Moon, Ju-Ri Kim, Sung-Kook Han, Jin-Tak Choi

Web-based Cooperative Learning System ...................................................... 83  
Kil Hong Joo, Nam Hun Park and Sung Hun Kim

A Level-wise Hierarchical Document Clustering method for Categorization ..... 87  
Kil Hong Joo and Nam Hun Park
A Clustering OLAP Analysis in a Big Data Stream Environment ..................93
   Ho Jin Woo, Kil Hong Joo, Nam Hun Park

Sedimentation Process Modeling using Transfer Function ARIMA for Water
Quality Diagnosis and Prediction ....................................................97
   Sang-Hyuk Park, Jayong Koo

A study on optimal design methodology of multi-objective rainwater
detention system using SWMM and linear programming .......................101
   Sang-Hyuk Park, Hyun-Dong Lee, Min-Cheol Kim, Seol-Hee Park,
   Jayong Koo

A Study of Analysis Method for LID Facilities....................................105
   Reeho Kim, Sangmin Park, Hyundong Lee

Create a Missing Precipitation Data based on Spatial Interpolation Methods in
Not Covered Areas by Region Climate Change Scenario ......................109
   Dongwoo Jang, Hyoseon Park, JinTak Choi

Water Quality Impact Assessment of Future Songdo Sewage Treatment Plant
using Korean Water Quality Index .....................................................113
   Dongwoo Jang, Hyoseon Park

Efficient maintenance planning of water distribution networks by using
statistic methods.............................................................................117
   Choi Jong-In, Lee Hyun-Dong

Study on Mobile Device and Convergence service Method in Object Internet..120
   Hyu-Chan Kim, Mi-Jung Kim

A Study on Application of the Smart Irrigation System through Drought
Resilience Analysis..........................................................................124
   Hyun Joong Kang, Seung Kwon Jung, Seung Jin Maeng, JinTak Choi

A Study on the Integrated Operation and the Development of Smart Water
Grid Monitoring Systems.................................................................128
   Yong Hyeon Gwon, Seung Kwon Jung, Su Won Lee, Jin Tak Choi

A study on Standardization of Integrated database for Intelligent water
information management.................................................................132
   Ji Won Jung, Seung Kwon Jung, Jin Tak Choi, Dong Seop Lee
A Better User Experience in Mobile Indoor Navigation System using Augmented Reality ................................................................. 137
   Chin Gee Low and Yunli Lee

Hybrid Search over Korean Web Contents ........................................ 141
   Byung-Joo Shin, Seong Joon Yoo

Migrating Building Energy Management System to Public Cloud in a Secure Way ........................................................................ 145
   Eun-Kyu Lee and Iksoo Kim

Digital Image Watermarking using wavelet packet and hybrid Filter ................................................................. 149
   Su Young Han

Quick Spatial Data Access using Expanded Cells in Non-flat Wireless Data Broadcast over Multiple Channels ........................................ 153
   Seokjin Im and Jin-Tak Choi

Classification Technique for Filtering Sentiment Vocabularies for the Enhancement of Accuracy of Opinion Mining ........................................ 157
   Ji-Hoon Seo, Ho-Sun Lee, Jin-Tak Choi

Flood inundation prediction model on spatial characteristics with utilization of OLAP-based multidimensional cube information ........................................ 162
   Hye-Jin Jo, Yoon-Ju Lee, Ji-Hoon Seo, Jin-Tak Choi

Data Mining technique and its Application: Association rules mining for Korean language .................................................................... 167
   Irfan Ajmal Khan, Junghyun Woo, Jin-Tak Choi

Continuance Intention to Use Table-Top Tablet Ordering Systems in Restaurants: An Expectation-Confirmation Model ........................................ 171
   Younghoon Chang, Siew Fan Wong, Priscilla a/p Sugumar, Muthukumaran Maruthappa

Scenario for Secure Transmission of Bio-information between Mobile application and Health Server .................................................. 176
   Jong Tak Kim, Hee Jun Pan, Young Ho Lee, Un Gu Kang, Byung Mun Lee

Personalized Service Model for Sharing Medical Devices in IoT Health-Platform ..................................................................... 180
   Byung Mun Lee
A Development of the Multi-item Water Quality Monitoring System Using Markov Process
ByungMun, Lee, Un-Gu Kang

The Stock Trading System Using X-DBaaS in Cloud Environment
Hyung-Jin Kim, Seok-Jae Moon

Analysis of Storm Sewer Discharge Capacity of Urban Watershed using MOUSE
Hyoseon Park, Dongwoo Jang

A Study on Mobile P2P Multicast Construction Considering the Relay Elements and Energy
SungWook Choi, Chang Hee Kim

Intelligent Decision Support System (DSS) Software for System Operation and Multiple Water Resources Blending in Water Treatment Facilities
Dal-sik Woo, Sung-Hoon Shin, Hak-Soo Lee, Jaekyeong Lee

A Study on Water Balance Evaluation Modules for Smart Water management in Isolated Region
Seongjoon Byeon, Sangjin Ahn, Jaekwang Jung, Joowon Kim

Computational Fluid Dynamics Analysis on Filtration Effect of Non-Point Source
Seongjoon Byeon, Bonjin Koo, Jintak Choi

Development of the Mobile Application for Equalization of Digital Audio System
Jung-Sook Kim

An Effect of Erasure Decoding Scheme in FH/SSMA Systems with RS Codes and M-ary FSK Signaling
Jeong Gon Kim

A Study on Comparison and Analysis of Usability Evaluation Model for Gameplay
Jung-Yoon Kim

Production of Interactive Media Art Works Imitating Reproduction Activity of Sperm
Dongjo Kim
Emotional Icon Design representative Game Player’s state of emotion using Brainwave .................................................................235
Han-Moi Sim, Jung-Yoon Kim, Dong-Ju Kim, Chul-Kang Yoo, Won-Hyung Lee

Interactive Interfaces in Projection Mapping Projects: Participation through Play................................................................241
ChangYong Jung, Hyunil C. Kim, Hyunggi Kim

An Improvement of the Occlusion Detection Performance in Sequential Images Using Optical Flow ................................................247
Jin Woo Choi, Jae Seoung Kim, Taeg Kuen Whangbo

Significant Factors in Applications for Reducing High Energy Visible Light on Mobile Displays ..............................................252
Hyun-Suh Kim and Howard Kim

The Horse Industry in Korea: Its Present Condition and Prospect ............256
Jin-Young Kim

Various Block Size for Median Filter .....................................................261
Jiwon Yang, Gwanggil Jeon

Scrambling Using Phase Information .....................................................265
Seongsu Lee, Gwanggil Jeon

Living in Art : A Case of the Samlye Art Village, Korea..........................270
Jin-Young Kim

Design of Fast Quantum-dot Cellular Automata Decoder .......................274
Kondwani Makanda, Jun-Cheol Jeon
